EXPERIENCE

Jun 2019 - CURRENT

Freelance Web Developer

See Projects for details

Aug 2018 – Apr 2020

Computer and Assistive Technology Instructor, *Donka, Inc.*
- Served Department of Rehabilitation Services (DRS) and private pay students working through Donka's Microsoft Office curriculum.
- Performed web server migration and developed a Node.js back-end for Donka's website, reducing loading times by upwards of 50% and increasing stability.
- Prepared materials for and co-hosted university seminars on assistive technology (AT) alongside other Donka staff members.

PROJECTS

MATERIAL COMPONENTS VUE
mcv.crimmins.io

A Vue.js components library implementing Google's Material Design spec. SSR safe with a focus on customization, accessibility, and best practices. Utilizes Jest for automated testing of components and mixins.

Skills: Vue.js, JavaScript, Jest, Git, Accessibility, TypeScript

CHALLENGEACCEPTEDESCAPE.COM
challengeacceptedescape.com

A website built with Nuxt.js (a Vue.js framework) for Challenge Accepted Escape Rooms, an entertainment facility in Bloomingdale, IL. Tightly integrated with Resova for ecommerce functionality and Google Analytics and Google Ads for conversion tracking.

Skills: Vue.js, JavaScript, Nuxt.js, Node.js Docker, CSS/SASS, REST APIs, Google Ads

EODM.PRODUCTIONS
eodm.productions

EoDM Productions sells 3D-printed headphone stands that you can design using their website. The site features a 3D model viewer that allows you to see how the colors you are choosing will appear on your headphone stand in real time.

Skills: Vue.js, JavaScript, Nuxt.js, Node.js, CSS/SASS, REST APIs, GLB, MySQL, Authentication/Authorization, Stripe

INGSVIZ.COM
ingsviz.com

Mocked up and iterated on the portfolio website design using Figma. Developed the site using Nuxt (a Vue.js framework). Integrated with Cloudinary (an Image CDN) to ensure each art asset was delivered efficiently and in the highest possible quality.

Skills: Figma, Vue.js, Nuxt.js, Cloudinary, Web Design, Google Cloud Platform (GCP)

SKILLS

HTML & CSS
JavaScript (TypeScript, Node.js, Vue)
Jest
REST APIs
Google Cloud Platform (GCP)
Git & GitHub
